RealDVD is a universal DVD decoder/player that can play most DVD formats, including the now officially licensed version of DivX. It is a fairly basic player with a very simple interface, but it has all of the needed functions for a simple media player. It allows users to copy and burn DVDs, play DVDs, rip DVD audio tracks, as well as convert between various formats including AVI, WMA,

MPEG, WAV, ASF, MP3, etc. The program can be customized via the extensive settings menu. In the "Settings" tab, there is a section for video (e.g. image adjustment, aspect ratio, frames per second, brightness and contrast). However, there is no hardware acceleration available with the program. You can also set the codec type and quality level. RealDVD supports most popular codecs, including DivX, MPEG-4, Xvid, H.264/MPEG-4 AVC, DivX 5/XviD, WMV, RM, RMVB, as well as Motion JPEG and Motion PGM. There is a built-in editor where you can edit your own subtitles and other media. The program displays a built-in database of over 4,000 popular movie and TV shows. You can also go to various menus, adjust the audio and video settings (e.g. send audio to video track, select audio language and more). There is also a configuration tab which allows you to change subtitle settings, movie or TV show listing and more. The program can be installed with an optional link, thanks to its options to install it. RealDVD can rip DVDs, rip DVD Audio tracks, copy DVDs, as well as burn and capture videos.
