most popularQ: Removing all occurrences of a string from an array How can I remove all
occurrences of a string from an array? For example, say I have an array like: NSString *array =
@[@"Me", @"Ask", @"You", @"Me", @"Me", @"Me", @"This"]; I want to remove all strings that
contain the string "Me". The result should be: @[@"Ask", @"You", @"This"]; I currently have:
NSString *str = @"Me"; NSArray *letters = [array
componentsSeparatedByCharactersInSet:[NSCharacterSet alphanumericCharacterSet]];
NSMutableArray *deleted = [NSMutableArray new]; for (NSString *letter in letters) { if ([letter
rangeOfString:str].location != NSNotFound) { [deleted addObject:letter]; } } NSLog(@"%@"
deleted); But my problem is that it will only remove the first occurrence. A: You could use
array.removeObjectsFromArray(array.copy().mutableCopy(withObjects: removedObjects)) but this
might be inefficient in terms of performance Update: It is not known whether removing objects
from an array does generate a copy, or whether objects are simply shifted: Remember to copy new
objects into new locations, if you move an object in the array, or move or copy the object in the
array. If that is the case then the following works as well
array.removeObjectsFromArray(array.filter{\$0 != removedObjects.first}) A: I don't think there is an
easy way to do that. BUT you could do something like this:
array.removeObjectsFromArray(array.filter{\$0 == "Me"}) Note that this will not preserve the original
order of your array. A: If you want to remove the first and last two objects from an array of
objects, then you can use: array.removeObjectsFromArray(array.suff

best high-compression large-file android games May 6, 2020 . 4, but they both have something to
make them worth your download. First is you get a great small game for a small price. If you like
card games, this will be the one for you. Second, more than 30 years of gameplay. This game gives
you an old school feel from the late 80s and early 90s. Third, the game is what I like to call Classic.
After you have played the game you will be able to tell that this isn't a modern card game like
Poker, Bridge, or BlackJack. This is a classic game that deserves to be played. The game can be
downloaded here. It is rated 4.8/5 stars with 3,641,659 total ratings. free download highly
